

Bruce Adamson

Bruce was born in Winchester Indiana on March 5th, 1954. His Father was a salesman for a seed company and they ended up moving about every 6 years living in Indiana and Ohio, but never getting too far away from the Richmond area. In September of 1972, his family moved from Tipton Indiana to Troy Ohio and he went off to college in Vincennes, Indiana. He graduated as an auto mechanic and went to work at the local Ford dealership in Troy. He soon learned if he wanted to make money he would need to own his own shop someday. He moved on to managing a local Marathon gas station, still doing auto mechanic work at the station. It was by luck that there was an LK restaurant next to the station. Bruce would go over for lunch or dinner, and it is where he met his Lady Teri. They were married on Jan 18th, 1975 and have 3 children and 8 grandchildren ranging in age from 3 to 20 yrs. old. A neighbor told Bruce of an opportunity to go to work at Copeland in Sidney, where his background as a mechanic would serve him well in their compressor lab. Bruce started work at Copeland on Jan 26th, 1976 and has steadily moved upward and is a Lead Manufacturing Engineer in the Advanced Manufacturing Engineering Dept of what is now called Emerson, Commercial & Residential Solutions. He spends a lot of time on the road assisting their sister plants in Missouri and Louisiana.

Bruce was raised a Master Mason in Arcanum 295 in 1991. His work with Boy Scouts kept him from attending lodge meetings. His job moved him to Missouri in 1998. While in Lebanon Missouri, he started attending lodge meetings at Laclede Lodge #83 in Lebanon, Missouri He demitted his membership to Missouri and became a Knight in the York Rite. His job moved him back to Ohio in 2001. He attended a single day class and joined the Scottish Rite and Shrine in one day and demitted his membership back to Ohio and now attends lodge meetings at Franklin #14 where he is Junior Steward. He eventually became a member of the Miami County Shrine Club and the Parade Escort Unit and enjoys riding his Harley in the parades.
